

M thru R are on Fiberglass Gel Coat- good adhesion for most plastic lettering and bumper sticker material

Front Dimensions

M – 68.5

N – 111 cm usable between cast in vertical details

O – 27 cm

In this view P thru are are viewed obliquely

P – 124 cm usable before fender radius gets too sharp

Q – 79.5 “hood “ space this and ‘M’ above are prime space

R – 27 cm

The word Th!nk is cast in .5 cm relief across S and U

S – 18 cm

T – 22 cm

U – 79.5 cm

S thru U and F thru K are all on a textured vinyl injection-molded material... may be hard to get letter to stick for a long time...worth a shot if needs be

Back dimensions

F - 25 cm before curve becomes too abrupt to place stickers

G - 63 cm all the way across the two doors.. one door is about half that

H – 25 cm

J – 38 cm

K – 75 cm along the top of the “trunk” not that visible from directly behind but good when parked to foot traffic.

I’d let the teams know that they can have what ever “non offensive” , school related seat and wheel covers they want as well as the ROP uprights can feature School Names/ emblems

Then allow a pre- determined space on the front and back details that the teams or SD fills in with Team info contained within the SD Art...

Could also do something neat with a “wind shield insert “ I’ll get dimensions if anyone has a brain storm....DES
